

Workday Delivers Payroll for France

Customers Gain Greater Control, Flexibility, and Insight to Address Local Payroll Requirements

PLEASANTON, CA and PARIS, FRANCE--(Marketwired - Mar 10, 2016) - [Workday, Inc.](#) (NYSE: WDAY), a leader in enterprise cloud applications for [finance](#) and [human resources](#), today announced the availability of [Workday Payroll for France](#), a new application that enables organizations with employees in France to streamline the payroll process and address the full spectrum of enterprise payroll needs. Workday Payroll for France was built as part of Workday Financial Management and Workday Human Capital Management (HCM) to facilitate faster financial reporting, improve compliance control, and provide a more comprehensive view of global and local labor costs.

Payroll has traditionally been challenging for global organizations due to complex regulatory requirements pertaining to each country and a lack of real-time insights on global payroll actuals. Building on the success of Workday Payroll for the U.S., Canada, and UK, Workday Payroll for France helps alleviate these pain points and equips customers with the flexibility, control, and insight required to support the unique aspects of their organizations.

Customers using Workday Payroll for France benefit from:

- **Support for France-specific and Regional Legislative Requirements** - For example, Workday Payroll for France automatically runs the newly-initiated Déclaration Sociale Nominative (DSN) process, making it simpler for organizations to replace a wide range of reports with a single statement. The application also supports the Single Euro Payments Area (SEPA) payment-integration initiative of the European Union.
- **Real-time Analytics and Reporting** - Organizations can now see what they are actually spending on workers via pre-built reports and analytics. In addition, the new application features a unique dashboard that enables customers to quickly identify and proactively manage high-impact compliance changes directly affecting their employee populations.
- **Automatic Tax Updates** - With a cloud delivery model, new tax updates are automatically applied, eliminating the need for upgrades and patches required by on-premise payroll systems.
- **Powerful and Flexible Calculation Tool** - Workday's robust calculation engine makes it easy for payroll administrators to handle complex requirements and run calculations as often as needed, with faster payroll-processing time.
- **High Configurability** - Payroll administrators can easily configure unlimited earnings, deductions, pay groups, and pay frequencies to support calculation and reporting needs.
- **Mobile Access** - With one self-service application, employees can check pay slips and payment elections, and administrators have the ability to process payroll -- anywhere, anytime.

Comments on the News

"Organizations in France require a modern application to simplify payroll processing and keep pace with recent legislation and a constantly-changing workforce," said Barbry McGann, vice president, payroll and time products, Workday. "Workday Payroll for France unifies payroll and HR in the cloud, offering customers the control, flexibility, and insight required to gain complete visibility across the business and workforce to help fuel growth."

Availability

Workday Payroll for France will be generally available on March 12, 2016.
